

July 1, 2024

Dear Members of the Nassau County Medical Society,

I am deeply honored to have been elected as the new President of the Nassau County Medical Society. It is with great enthusiasm and a sense of responsibility that I accept this position, and I am committed to serving our esteemed society with utmost dedication.

Firstly, I want to express my sincere gratitude to my predecessor, Dr. David Podwall, for his outstanding leadership and tireless efforts in advancing the mission of our society. Under his guidance, the Nassau County Medical Society has flourished, and I am determined to build upon his achievements.

As we embark on this new chapter, it is essential for us to recognize the challenges that lie ahead. The world of medicine is constantly evolving, and we must adapt to the changing landscape while upholding the highest standards of patient care. Together, we will face these challenges head-on and find innovative solutions that benefit both our patients and our profession.

One of my primary goals as President is to foster a collaborative environment that promotes professional growth and camaraderie among our members. I believe that by nurturing a strong sense of community, we can leverage the diverse expertise within our society to tackle complex issues and drive meaningful change. I encourage each and every one of you to actively engage in our society's activities, share your knowledge, and contribute to our collective success.

Another area of focus for me will be advocating for the well-being of our physicians. We are all too familiar with the demands and pressures that come with our profession. It is crucial that we prioritize self-care, mental health, and work-life balance. I am dedicated to creating initiatives that support the overall well-being of our members, ensuring they have the resources and support they need to thrive both professionally and personally.

I am excited about the possibilities that lie ahead and the opportunity to work alongside each of you. Together, we can continue to elevate the Nassau County Medical Society to new heights and make a lasting impact on the healthcare landscape.

Please feel free to reach out to me or our Executive Director, Ms. Stavroula Savelidis, should you have any questions, concerns or suggestions on programming or activities you would like to see the Nassau County Medical Society present or partake in. We would love to hear from you and value your opinions.

Thank you for entrusting me with this role. I look forward to serving you and our society with passion, integrity, and unwavering commitment.

Warmest regards,

Robert Schreiber, MD, FCCP  
President, Nassau County Medical Society
